

Academic Goals:

Goal #1: I would like to maintain my good grades in my classes. I will try not to get any grade lower than a B. I have chosen this goal because I know that it's very important to have good grades and having good grades will affect my future greatly. Also, it makes me proud to be in honor roll!

Goal #2: I would like to do well in my STAR test. I will try to get into the advanced range in my STAR test results, preferably even get a 600 in math or English. I have chosen this goal because having good STAR test results will affect my future and determine whether or not I'll be in an advanced class next year.

Goal #3: I would like to become a pediatrician when I grow up. I know that's not for another ten years, but I'll start by working very, very hard in Health Science. I have chosen this goal because being a doctor is a good career and it is important to think about my future now.

Personal Goals:

Goal #1: I would like to be more respectful to my younger brother. I chose this goal because it is important to have a strong relationship with my sibling. From now on, I won't scold him that often, or tease him, for that matter.

Goal #2: I would like to help out around my house more often. I could do the dishes and other chores, such as cleaning out my guinea pigs' cage instead leaving my parents to do it. I chose this goal because I know that I need to be more responsible in order to be successful in life, and doing chores is a good start.

Goal #3: I would like to have a bigger variety of friends at school. I could try being more friendly to people who I'm not really familiar with at the moment, and perhaps even become their friend. I chose this goal because it's important to have lots of friends in life to look up to and work with.

I want to be a part of GAINS so that I can understand more possibilities for women when they grow up and have a career. Women have different careers than men, and I think it would be important for me to understand that there are many more options in life. Being in a part of GAINS would help me consider my future.
